Suffix R defines that the larger sink is to the right, suffix L to the left, (waste holes at the rear).
 See the sketch sheets for more information on dimensions, layouts, flange and waste detail.

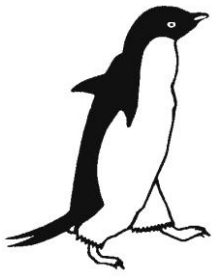

Above dimensions are internal. See sketch pages for more detail on dimensions, layouts and flange details, and compatible wastes.

Sink & basin bodies are formed from 1 mm thick 18/8 grade stainless steel & either polished or satin finished internally and on the flange top.

'Blind fixing' means that unseen captive nuts are welded under the flange of inset sinks which are used with the studs and nuts supplied to hold the sinks or basin neatly onto the work surface, on a removable soft mastic

'No fixing' means the unit is bonded in using a suitable bonding agent.
